e: matthew.d.newman@gmail.com

User Experience Designer and Multimedia Specialist with a versatile background in operations, management, production printing, and customer service. I possess a unique blend of creative and technical expertise, having worked in diverse environments from retail and corporate settings to dynamic start-ups. I bring over a decade of experience in freelance web development, motion graphics, sound design, and video editing. My passion for design and technology drives me to create user-centered solutions that are both visually compelling and functionally robust. I am committed to continuous learning and thrive in collaborative environments.
